Coalition Mission

The mission of the Maryland Family Engagement Coalition is to support early care and education providers' efforts toward increasing family engagement practices that improve outcomes for children, parents and families.

Coalition Vision

The vision of the Maryland Family Engagement Coalition is to create stronger partnerships, foster communication and develop best practices that will serve as a national model for connecting early care and education providers, parents, families, the community, state agencies, and beyond.

Maryland's Definition of Family Engagement

Family engagement is a shared responsibility of families, schools and communities for student learning and achievement; it is continuous from birth into the school-age years; and it occurs across the various early care and learning settings where children are. Family engagement means building relationships with families that support family well-being, strong parent-child relationships, and the ongoing learning and development of parents and children alike. It reflects culturally competent and universal design approaches, encompassing the beliefs, attitudes, behaviors, and activities of

all families, as well as early care settings that support all children’s positive development. Family engagement happens in the home, early childhood settings, school, and community. Sustainable family engagement operates with adequate resources, including public-private partnerships, to ensure meaningful and effective strategies that have the power to impact student learning and achievement.
