Georgia's Facilitated IEP Program Survey The Georgia Department of Education (GaDOE) has a continuing interest in elevating the quality of IEP meetings. Every IEP is "facilitated" by the person responsible for calling and organizing the meeting, but not everyone is equally skilled in preparing for and conducting an IEP meeting. To support improved IEPs for students, GaDOE intends to launch a two-part initiative. The first will provide trained facilitators from the GaDOE to districts who are requesting the services of an external facilitator. The second part will develop and share training materials for basic and advanced facilitation skills in order to increase the skills of local stakeholders to conduct and participate in effective IEP team meetings. We are very interested in receiving feedback from a broad array of stakeholders who can help us to ensure that this effort is successful. Please take a few minutes to provide us with input by answering the questions below and including your comments where appropriate. Your timely response will help ensure your input is considered.
